## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The instant invention claims beads of phenolic compound having specific composition and properties. The closest prior art reference that relates to the claimed invention is Eguchi'485 that has been cited in European Search Report. The closest prior art of record does not teach or fairly suggest the instant invention wherein beads have structure and properties as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
